PRESS RELEASE

The Ministry of Road Transport and Highways, through a notice dated November 11, 2025, has issued an order to increase CF Testing fees for all types of transport vehicles at an exorbitant rate, that is upto 200% to 500%

The financial condition of the transport industry is already extremely critical. This fee hike acts as a crushing burden on an already distressed sector (like "the straw that broke the camel's back").

The All India Road Transport Workers Federation strongly protests this unilateral and abnormal test fee hike. We demand the immediate withdrawal of the increased fees.

With Regards

Jiban Saha
General Secretary
